PROFESSIONAL SUMMARY

Frontend Developer and UI/UX enthusiast with a proven track record in designing and developing responsive web applications. Experienced in modern UI redesigns, building seamless user journeys, and optimizing digital workflows. Skilled in collaborating across Agile teams to deliver products that balance functionality, aesthetics, and business needs.

AREAS OF EXPERTISE

- Frontend: HTML5, CSS3, JavaScript (Vanilla), CSHTML, Bootstrap, Tailwind CSS
- UI/UX Design: Wireframes, Prototyping, Responsive Design, Figma, User-Centered Design
- Web & Product: SoftOne ERP, myData e-invoicing, APIs, SaaS platforms
- Tools & Tech: Git/GitHub, VS Code, Postman, Adobe Photoshop, C#, Azure
- Agile & Delivery: Scrum, Sprint planning, CI/CD fundamentals, cross-functional collaboration

CAREER HIGHLIGHTS

- Redesigned e-invoicing portals, enhancing user interfaces and improving task flows, leading to increased user satisfaction.
- Managed large-scale ERP integrations, ensuring seamless UI performance and compliance with digital invoicing regulations.
- Delivered intuitive client training and onboarding, simplifying complex ERP & WMS systems into clear, user-friendly processes.
- Improved product stability by actively reporting bugs and collaborating with R&D to implement feature enhancements.

PROFESSIONAL EXPERIENCE

Frontend Developer

Impact (SoftOne & Entersoft), Athens | Jan 2024 – Present

- Built responsive web templates with HTML, CSS, JavaScript, CSHTML, Bootstrap, improving cross-browser performance.
- Led UI/UX revamp of e-invoicing systems, modernizing interfaces and optimizing customer workflows.
- Managed deployments, debugged production issues, and delivered new features in Agile sprints.
- Ensured compliance and consistent UI behaviors across large-scale products.
- Collaborated with Product Managers & QA using Git, Figma, Postman, and conducted user-focused refinements.

ERP Consultant

SoftOne Technologies, Athens | Oct 2022 – Jan 2024

- Customized ERP & WMS interfaces, enhancing usability and integrating myData e-invoicing workflows.
- Delivered UX-focused training, transforming technical ERP steps into intuitive experiences for clients.
- Reported and tracked bugs with R&D, directly contributing to improved software stability and user satisfaction.

Earlier Roles:

- Retail Manager & Logistics Assistant — supported operations with Soft1 ERP.
- Completed Military Service, developing discipline, adaptability, and teamwork under demanding conditions.

EDUCATION & CERTIFICATIONS

- BSc, Management Science & Technology, Athens University of Economics & Business (Thesis: Digital Transformation & UI Adoption in SMEs)
- React JS Developer (in progress) – National and Kapodistrian University of Athens
- Web Development & UX/UI Design – AUEB
- Certified SoftOne ERP Consultant
